

In addition to a range of mobile breathing-air compressors and long duration trailer systems **factair** offer a selection of escape sets for hire.

ELSA SPRINT

10 minute duration escape set air supply automatically activated when carry bag is opened. Cylinder contents can be externally viewed through clear panel.

FLITE 10

Automatic positive pressure air BA with 10 minute escape duration. Bandolier style harness. 2 litre leg cylinder with quick release coupling allows operator disconnection from airline without loss of air. Can be used in conjunction with **factair** mobile breathing-air compressors and long duration cylinder systems.

SIGMA 2 SET

30 minute duration self contained breathing apparatus set, complete with Panaseal neoprene face mask, pressure contents gauge and warning whistle.

DASH SET

10 minute BA escape set, the hood allows for peripheral vision. Can be worn over spectacles and beards.
