Powered Air Respirators

For all those working in dusty environments you can now protect yourself with Factair's battery powered air fed respirators. With an extensive fleet available these units can be supplied on a next day service.

These easy to use systems incorporate an integral hard hat, eye and hearing protection. The battery powered filtration systems delivers a continuous source of air to the user removing in excess of 95% of the surrounding atmospheric dust.

Each powered air respirator has an 8 hour battery life and is supplied with a comprehensive range of ancillaries.*

Ideal for those working on or near machines dropping stone or operating machines that may produce dust from the ballast, Battery powered air fed respirators, can also provide important protection to those who may suffer from chest, asthma or respiratory conditions when working in places where there is a risk of elevated dust levels.

Available for hire from £80.00 per week

All hire is conducted under the CPA standard contract conditions, price exclude value added tax and are valid until the end of 2014.

* Each kit; includes battery filter unit, twin chemical compound filters, pre dust filter pads, two eight hour batteries, battery charger, cleaning wipes, small battery cap lamp and transport case.
